# Can **BillQuick** Really, Actually Help Your Firm?

At its core, BillQuick is a time tracking and billing solution. But to confine it to that definition is the equivalent of using a smart phone solely to make or receive calls—it'd just be wasteful. "Once you delve into every capability of this brand, it becomes apparent that the name, BillQuick, is overly modest for such an ambitious and useful product," explains TopTenReviews.com, which continues:

*BillQuick is the best invoice software because it will decrease the time you take to complete your billing and you cannot outgrow it. It automates repetitive tasks. It will also speed up and improve the accuracy of your timekeeping. This billing software takes the data that you feed it and turns it into business intelligence to illustrate which projects perform best for your company, how your business is doing overall and how individual projects are performing.*

## QUANTIFIABLY BENEFICIAL

BillQuick has earned its stellar reputation by making a quantifiable difference for firms. Alan Fox, a CPA at Fox and Fiorino puts it into perspective:

*Any solution we bring into our firm has to do one thing: make us money. Before we implemented BillQuick, our admin person spent significant hours managing time sheets and rekeying it into another program. Now she has less overtime. Our firm reflects an increase in revenues and cash flow of 10% and 15% respectively.*

Alfermann Gray and Co. was able to save thousands of dollars in revenue from being lost by locating and billing for 1000s of WIP items and 100s of line items their old software missed. Their ROI not only paid for BillQuick—it also covered the cost of their previous software.

BillQuick is hailed by Intuit's Marketplace website as a Gold Developer Application because of its seamless integration with QuickBooks. BQE appreciates that many customers use other accounting applications as well and has powerful integration with Sage 50, MYOB and many more.

## A CLEAR MARKET FAVORITE

"BillQuick offers some of the most flexible time billing and project management solutions on the market, both in terms of functionality and deployment. It's a scalable, highly configurable software solution [that] leads to better client communication, faster billing and, ultimately, lowered administration costs," reports SoftwareAdvice.com.

Intuit Marketplace continues that "BillQuick is an extremely flexible tool that should meet the needs of the most demanding time and expense tracking and billing environments." CPA Practice Advisor agrees "BillQuick is among the more mature and fully seasoned time and billing systems available to the accounting profession" in its 5-Star Review of the product.
