VIBRATORY FORCE:	10000 lbs
GALLONS PER MINUTE:	7 to 40
DEPTH IN TRENCH:	42"

*3" extensions **6" extensions

Compaction wheels are ideal for windmill projects, golf course construction, water and cable lines, government projects, or anywhere compaction is needed. The SP48 is a hydraulic vibratory compaction wheel with a 48-inch diameter wheel. It is capable of compacting trenches up to 30 inches in width and will go down into the trench 42 inches deep. The unit attaches easily to any skid steer and its split-ring design makes it easy to install the bolt-on extensions.
